

krM Architecture is a multidisciplinary design studio focused on transforming the built environment to meet the true needs of our clients. We are committed to craft, quality and an inclusive design process. Our reputation for combining excellent design solutions with a high level of technical expertise ensures that our clients receive exemplary customer service.

We are currently seeking a **Senior Project Architect** to join our design team in our Plymouth, MI office. We are looking for people who have a passion for design, materiality, and architectural detailing. krM is an equal opportunity employer. We provide a competitive salary with bonus and an excellent benefits package.

Responsibilities

- Works closely with Project Manager and Principals throughout the project timeline to delivery successful projects - Manages multiple projects of varying types and responsible for all coordination efforts including krM staff, outside consultants, contractors, and clients
- Assists in researching, investigating and applying architectural design standards for new construction, remodeling and tenant improvement projects
- Develops technical details for the project including plans, sections, elevations, plan/sections details and schedules using Revit and other software
- Participate in quality control reviews in accordance with established office standards
- Assist and provide input on code research

Qualifications

- Bachelor or Master's Degree in Architecture from an accredited college or university AND 5+ years of professional experience working on architectural production for commercial projects - Licensed Architect preferred
- Proficiency with and proven experience using Revit, Photoshop and other software programs
- Strong oral, written and listening communication skills with a positive and energetic attitude
- Ability to work independently and to work collaboratively in a team environment
- Proven experience developing accurate qualitative and quantitative construction cost estimates at various design stages
